Ultimate coin counters

Universal currency counters

Heavy Duty Coin Counters

SCAN COIN

With counting speeds up to 3,000 coins/minute, the SC-350 and SC-360 are real time-savers. Reliable partners for banking, retail, amusement and other businesses that need to count, verify or bag coins or tokens. Choose between a manual hopper and an automatic hopper with filling. Access to the coin rail makes checking and service very easy.

A universal partner

Whether you want to count, verify or bag volumes of coins or tokens, you have a reliable and flexible partner in SC-350/360. Separate adjustments for coin or token diameter and thickness make the SC-350/360 completely universal. Despite their relatively compact size, these are both high-performance units positioned to meet handling needs between heavy-duty counters and small back-office machines.

Easy access and handling

Compared with competing machines, SC-350/360 provides dramatically improved access to the coin rail, making it easy to open the hatch for checking or service. A non-volatile memory allows storage of data on counted coins, and electronic sensing technology assures high accuracy and low noise. Customers will also recognize, and benefit from, our standard interfaces and functions.

Competitive performance

With SC-350/360 you get a competitive coin counter that offers excellent value for money. Several features normally considered accessories are standard on SC-350/360 – RS 232 interface for external control, interface for remote display and other accessories – as part of an unbeatable, attractively-priced package. Other features include pre-selectable bag stops, memory, automatic reverse function to remove jammed coins, and automatic stop and outsort function for small coins. A large number of accessories and 7 pre-programmable quantity stops (plus 1 continuous) make the SC-350/360 highly effective filling machines, whether applied to coin tubes, big bags or small bags.

Versatility at its best

Due to their range of flexible functions, SC-350/360 are truly versatile coin counters. The serial interface makes it possible to monitor and control the SC-350/360 from a PC. This offers many convenient possibilities, e.g. a controlled cash-out unit for casinos.

High speed coin counters

The coin counters SC-350 and SC-360, fill an important gap between heavy-duty counters and small backoffice machines. These high-speed coin counters combine superior versatility with many advanced features, which are fitted as standard. The difference between the two is that SC-350 includes a manual hopper, while SC-360 has a larger, automatic hopper with filling.
